3. Collection of medical history of student

(i) Purpose of collection

As suggested by the Education Bureau, our school has to keep a record of student medical history so that we can provide appropriate assistance if needed. It is important for parents to provide the school with sufficient information about their child’s medical history to class teacher at the back of student information form on or before 04/09/2019 (Wednesday) so as to prevent any unnecessary accidents from happening in Physical Education lessons or other extra-curricular activities.

Personal data collected from your child is only used for handling matters related to his/her health and safety. Though the provision of such data is done entirely on a voluntary basis, insufficient information may prevent the school from fully understanding your child’s medical history. The school may not be able to provide proper assistance to him/her in case of an accident.

(ii) Access to personal data

According to the Personal Data (Privacy) Ordinance, parent/guardian has the right to access and correct the data provided. Please contact the school if needed.

To share a range of excellent exemplars of learning and teaching with fellow colleagues in the education community and to affirm the concerted effort made by teachers and students in the learning process, our school will disseminate selected exemplars on the website, in the Education Bureau publications, in newspapers and magazines, in teacher networking activities, exhibitions, and teacher sharing sessions to offer support among fellow colleagues and promote related research in learning and teaching.
